

Together over **100 years** of unparalleled experience and expertise

Products Overview

Domestic and Process Hot Water Heaters

- Patterson-Kelley Compact Steam Fired Semi-Instantaneous DWH Heaters
- Patterson-Kelley Duration Water to Water Semi-Instantaneous DWH Heaters
- AETECH Revolution Fully Assembled and Packaged DWH Heating Systems

Maxi-Therm Vertical Flooded Heat Exchangers: Steam to Liquid, Steam to Domestic Water Heating, Steam to Steam

- Eliminates PRV Stations, Pressure Relief Valves, Steam Control Valves, Steam Traps, Condensate Return Pumps
- Complete Packaged Systems for Heating, Domestic Hot water, Clean Steam, Redundant Systems with ZERO LAG Compact Steam Fired Semi-Instantaneous DWH Heaters
- AETECH Revolution Fully Assembled and Packaged DWH Heating Systems

Burners and Controls

- Industrial Combustion-Natural Gas, Digester Gas, Biogas, Light Oil, Heavy Oil & Dual Fuel Power Burners. Pressure Atomized, Air Atomized & Steam Atomized. Low NOx (9 HP-2,200 HP)
- ST Johnson High performance, low emissions multi-fuel fired burners for new and retrofit applications

Controls and Mixing Valves

- Advanced microprocessor based control solutions for equipment staging and sequencing, automatic level and variable speed control, gas leak detection, safety shutoff, remote monitoring and communications
- AETECH Gas Safety Monitoring and Control Systems

Commercial Heat Tracing Products and Systems

- Piping Freeze Protection
- Hot Water Temperature Maintenance
- Sidewalk and Driveway Snow Melting
- Roof and Gutter De-Icing

Gas Fired Modular Boilers and DHW Heaters

- Patterson-Kelley MACH, SONIC and VELOX High-Efficiency Gas Fired Hydronic Heaters, Boilers and DHW Heaters
- Patterson-Kelley HiDra Gas Fired Condensing Storage Type DHW Heater
- Parker Flex Tube High Efficiency Gas Fired Hydronic and Steam Boilers

Products Overview continued

Natural Gas Fuel Delivery Systems and Gas Safety Shutoff Systems

- Fully engineered and custom fabricated hermetically & non-hermetically sealed gas booster systems with flows from 1 to 100,000 CFH and differential pressures to 100 PSI
- ANSI certified gas pressure regulators and fabricated pressure regulating stations
